

FIELDS TO THE GREAT LAKES EVENTS

Farmers, Landowners of Rented Land and Partners of Agriculture are invited to participate in a variety of unique opportunities to learn more about Michigan Agriculture Environmental Assurance Program and current and emerging issues of water quality.

Event participants will hear from Farmers, Natural Resource Conservation District Staff and Partners of Agriculture on topics including but not limited to best management practices to protect water resources, Environmental Quality Incentive Program, 4R Nutrient Standards and Farmers Advisory Committee member roles in promoting more conservation program implementation.

“More Farmers need to get out to the Great Lakes to see for themselves what is happening – The Great Lakes are a treasure we all need to do our part to protect them”. Blaine Baker – Dairy

June – MAEAP
